

Cover Letter - Softgrade Studios

Dear Hiring Team at Softgrade Studios,

I'm excited to apply for the web development role at Softgrade Studios. I'm currently pursuing a Bachelor's degree in Mathematics and Computer Science at Murang'a University of Technology, and I've been sharpening my web development skills through FreeCodeCamp and personal projects.

I love building websites that are simple, functional, and visually clean. I've worked with HTML, CSS, JavaScript, and Django, and recently developed a small marketplace site, as well as a web and portal system for Edenfield Academy that manages student data and school information.

What draws me to Softgrade Studios is your focus on creative and high-quality web solutions. I'm eager to learn from your team, contribute my growing skills, and keep improving as a developer.

Thank you for considering my application. I'd be glad to discuss how I can contribute to your projects.

Sincerely,

Samuel Chomba Mwaniki
